### SUMMARY OF QUALIFICATIONS

---

Accomplished System Implementation Specialist. Adept in providing superior solutions to customers. Extensive background in full life-cycle of the Application Implementation process including needs analysis, solution acquisition / software design, database design, project management, coding, testing, installation, training, and maintenance. Proven track record of implementing superior flexible solutions that often exceed customer expectations.

### CAREER ACCOMPLISHMENTS

---

#### Great Northern Tech

1999 - Present

##### ➤ Project Manager/Implementation Specialist

Perform needs analysis/ERP for customer web applications. Design applications, relational databases and managed projects.

- Complete integration of every operation in our business, allowing for an extremely low overhead for a start up company.
- Worked with many companies that were also start ups to develop web applications, provide hosting and internet connectivity. Our team developed shopping cart applications for over 20 companies.
- Built internal web applications to help companies be more profitable. Through new system applications and internal controls we were able to cut the variance on a building houses for a home builder to approximately 0.1%.

#### Accounting Enterprises / MIS Computers

1989 - 1999

##### ➤ Implementation Specialist

Perform needs analysis/ERP and subsequent presentations to customers in order to implement software applications and provided training to meet needs. Provided Project Management, Systems Installation, Training and Support to the customer.

- Installed over 30 accounting systems for public and privately held businesses such as Itron International.
- Integrated software with reporting needs and consolidation of financial statements.
- Built custom solutions in addition to packaged software such as Dynamics and Dexterity.
- Migrated customers from various accounting solutions to improved systems and converted data.

#### Appleway Group – Controller

1988 - 1989

##### ➤ Controller

Managed accounting staff and provided financial statements to owners, General Motors, and Toyota.

- Automated the month end process to accurately close the monthly financials within 1 week of month end verses the 25 days it took by my predecessors.
- Provides financials statements for 13 departments.
- Moved to Toyota division and provided management with the same efficiencies as the General Motors division.

(Continued)

**Deloitte, Haskins, & Sells (Deloitte - Touche)**

**1986 - 1988**

➤ **Auditor / Branch Computer Specialist**

Performed audits on the largest companies in the area. By my second year, I became audit manager for some of our clients.

- Set up the data communications and designed databases and reports for intercompany information.
- Worked with dozens of public companies such as Itron, Itronix, Avista, and Key Tronic. Through auditing these companies, I developed a very good understanding of business automation and transaction flow.
