

# Greenstone

ENRICHED LIVING. LASTING VALUE.

September 21, 2009

To Whom It May Concern:

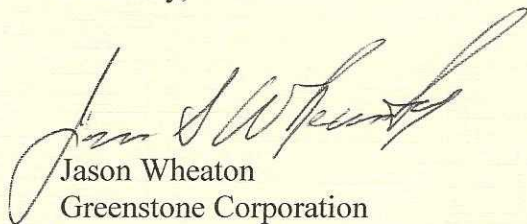

William McEwen of Great Northern has been consulting with our staff for the past four years. He has been instrumental in helping us improve our current internal operating system and designing new systems to make our organization more effective and efficient. As a result of the applications designed by William, we have been able to manage our communications both internally with our staff and externally with our subcontractors, resulting in considerable cost savings. His ability to take our rough designs and turn it into a functional application for us has been phenomenal. He has been a great asset to Greenstone and a pleasure to work with.

William is very experienced in financial operating procedures. His ability to interface with our staff and integrate software applications that are far superior than any "canned" program. This has allowed our organization to communicate across all departments which has allowed our organization to improve our bottom line in a very difficult economic environment.

I can assure you, if you are looking for an effective and experienced individual who has the ability to effectively interface with your staff and develop very effective software applications, William is an excellent choice. I believe you will be very impressed with his experience, effectiveness and his attitude.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Jason Wheaton
